Table of Contents: Volume 4 (1994)

Number 1

A Framework for Characterization of the Degree of Integration of Software Tools . . . . . *James D. Kiper* 5

Automated Merging of Software Prototypes . . . . . *David A. Dampier, Luqi, and Valdis Berzins* 33

An Integrated Concurrent Engineering Environment for Life Cycle Management . . . . . *Thomas M. Blinn, Keith A. Ackley, and Richard W. Mayer* 51

A Synthesis Technique of General Petri Nets . . . . . *Daniel Y. Chao and David T. Wang* 67

Number 2

The Design and Implementation of a Distributed Image Understanding System . . . . . *Shu-Yuen Hwang and Tsan-Pin Wang* 107

Development of Process-Centered IPSEs in the ALF Project . . . . . *Jean-Claude Dernaime and Volker Gruhn* 127

Quantification of Autonomy on Multidatabase Systems . . . . . *Ken Barker* 151

Design and Implementation of a Knowledge-Based Decision Support System for Estimating Software Development Work-Effort . . . . . *B. Griech and J.-Ch. Pomerol* 171

Number 3

A Case Study in Use of Framework Technology as the Basis for a Software Engineering Environment . . . . . *Alan W. Brown, David J. Carney, Alan M. Christie, Ed J. Morris, Paul F. Zarrella, and W. Michael Caldwell* 195

Formel Model of Single Agent Planning Situation . . . . . *Richard Mayer, Madhav Erraguntla, Christopher Menzel, and Jyh Chen Hwang* 243

Software Engineering and Production Monitoring Systems . . . . . *David W. Russell* 243

A Modified Transition Tour Protocol Test Method ..... *Chung-Ming Huang, Jenq-Muh Hsu, and Huei-Yang Lai* 257

Number 4

NF-NR: A Practical Normal Form for Nested Relations ..... *Tok-Wang Ling and Ling-Ling Yan* 309

Integrating Relational and Object-Oriented Database Systems using a Metaclass Concept ..... *Wolfgang Klas, Gisela Fischer, and Karl Aberer* 341

A Formal Approach to Modeling Office Information Systems ..... *Zhijian Zhu, James A. McHugh, Jason T. L. Wang, and Peter A. Ng* 373
